

Transportation – Traffic Engineering & Operations
Residential Neighborhood Traffic Management Program (*Traffic Calming*)
Item Request Form

Petitioner (Point of Contact):

Date:

SIGNATURES & COST (use additional pages if needed)

1. Applications for installation or removal of traffic calming must be submitted by at least ten owners of parcels with residential structures abutting and accessing the subject street.
2. If a minimum of two-thirds majority of the parcel owners abutting and accessing the subject street are not in support, the request will be denied.
3. The roadway must be a Local Street, Significant Local Street, or a Minor Collector Street located within a residential neighborhood as designated by the County.
4. All material costs for Traffic Calming Devices to be installed shall be directly paid for by the applicants.
5. Installation, maintenance and removal of residential neighborhood traffic management devices shall be provided by the County.
